- Metal and/or Plastic Tubing

Focus on Quality and Precision

- ISO 13485
- FDA Registered
- Design for Manufacturability
- Engineer to Engineer Customer Relationship

Supporting Leading Medical Device OEMs Among Others

- Abbott Labs
- Arthrex
- Boston Scientific
- Johnson & Johnson
- Medtronic
- Stryker

Prior Experience

MicroGroup Case Study

MicroGroup®

Supplier of precision metal components and assemblies focused on the medical device and diagnostic markets with a unique focus on stainless steel tubing

- Created an outside sales force to expand Engineered Products sales.
- Designed a new website, e-commerce store, and began using search engine marketing and other web tools to more effectively market MicroGroup's All Tube product line.
- Developed enhanced quality systems by achieving ISO 13485 and FDA registration as a contract manufacturer, further entrenching the business in the medical device segment.
- Implemented an improved inventory management program, which enabled the Company to significantly increase sales while maintaining a similar level of inventory.

Arch Global Precision Case Study

ARCH®

Specialized contract manufacturer of orthopedic implants and instruments, including robotic-assisted surgical devices

- Supported Strength Capital in its acquisition of three smaller businesses to form Arch Medical Solutions.
- Significantly improved program and customer concentration through a focused sales effort.
- Significant investment in machinery and equipment to upgrade the Company's machining capabilities.
- Deep base of talent with 25 engineers on staff.
- Equipment base allowed Arch to support a range of production volumes, which spanned over 8,000 SKUs.
- Supported eight of the top ten orthopedic device OEMs.

Why you should consider Kirtland as an investor in your business:

- Kirtland has substantial experience investing in precision manufacturing and engineered products businesses.
- We are a hard-working, humble and honest team.
- We invest over a longer-horizon, giving us flexibility to make investments to grow your business.
